**A MILLION FOR MISSIONS.**  
Methodists to Spend \$1,036,283 in Foreign Field Next Year.

**ALBANY, N. Y., Nov. 11.**—Governor Hughes greeted at noon today in the Executive chamber, the delegates who are attending the annual conference of the General Committee of Foreign Missions of the Methodist Church.

In the effort of the conference to reduce expenses there was a long discussion today on the advisability of combining the two home and foreign mission papers that are supplied free to contributors. The matter was finally left to a committee with power to act.

The conference voted to appropriate \$1,036,283 for foreign mission work the coming year.

**AFTER SICKNESS.**  
the heart is almost sure to be left in a weakened condition, and should be treated with Dr. Miles' New Heart Cure, a remedy that will rebuild and invigorate the heart nerves, and enable it to offer assistance to the convalescent organs, they furnishing an abundant supply of pure blood to nourish them. Money back if first bottle fails to benefit.

## A Municipal Triumph

Francis Marshall Elliott in the Twentieth Century Magazine: The stage setting in this instance was Pasadena, Cal., one of the most beautiful residential cities of the New World. It has a population of about 30,000. It is known the land over as a city of millionaires, and has more beautiful homes and more home owners than any city of like population in America. A large percentage of its people are retired capitalists and have come hither from almost every section to spend their declining years in this wonderful garden spot, where the sun is ever shining and flowers bloom perpetually. More than 150 men in the city are reputed to be worth a million dollars or more, while a large proportion of the population are persons in more than comfortable circumstances. Less than one hundred families dwell in flats, and there are no slums, no manufacturing enterprises, and no tenement sections. It is pre-eminently a city of wealth and culture, and by all preconceived notions of economics, Pasadena should be one of the most conservative and undemocratic communities in the land; yet as a matter of fact this city rejoices in perhaps the most fundamentally democratic municipal charter to be found in the world—a charter which provides that the city shall have the power—

"To purchase, receive, have, hold, lease, use and enjoy property of every kind and description, both within and without the limits of the city, and control and dispose of the same for the common benefit."

It furthermore specifically provides that the city shall have the power—

"To construct and maintain waterworks, pipes, pipe lines, aqueducts and hydrants for supplying the city and its inhabitants with water and the right to supply water to persons who live without the city."

"To construct and maintain gas and electric works for supplying the city and its inhabitants with light, heat and power."

"To construct and maintain works for supplying the city and its inhabitants with telephonic and telegraphic service."

"To construct and maintain and operate street railways and other means of conveyance, together with all rolling stock, power houses, equipment, appliances and apparatus necessary and proper in the operation, management, and control of the same."

Having thus provided that the municipality might primarily establish itself in any line of business deemed by the citizens to be the public weal, the framers of the charter, evidently fearing that they inadvertently overlooked some point of vantage where some individual or corporation was already established in some line which the community might consider to be to the collective advantage to own, rather than await the otherwise slow process of establishing and building up, in competition with said established enterprises or else in a spirit of slow abandon, provided in Section 23 of Article 3 that the city should have the power—

"To exercise the right of eminent domain for the purpose of acquiring real and personal property of every kind necessary or convenient for the use of said city or its inhabitants."

Now these radical and progressive sections of the most radical and democratic city charter in America were not forced upon a reluctant and protesting community by a coterie of socialistic agitators, but were evolved by a charter commission composed of said business men and retired capitalists, and they were submitted to and adopted by an overwhelming majority vote of the wealthy, staid and conservative home owners of Pasadena. In addition to the provisions above quoted, looking to the economic protection of the citizens of Pasadena, this remarkable document embodies the practical political safeguards of popular government—the initiative, referendum and right of recall, by which the citizens reserve to themselves the power to initiate desired legislation, to veto undesired legislation, and to recall or discharge unfaithful or incompetent officials or employees.

Having thus established themselves in this model and modern citadel of municipal democracy, the citizens of Pasadena were in a position to enjoy the legitimate benefits to be derived from natural monopolies—benefits which in various cities throughout the United States have, during the last half century, made scores of multi-millionaires at the expense of the wealth of the citizens and the purity of municipal governments.

### RIGO LIKES AMERICA.

**SAN FRANCISCO, November 18.**—Jans Rigo, gypsy violinist and former husband of Princess Chimay, and two of his fellow musicians are no longer willing to be subjects of foreign potentates. They are thoroughly imbued with a desire to become American citizens. Headed by Rigo, the trio appeared at the naturalization bureau in the County Clerk's office yesterday afternoon and obtained their first papers.

### 500 IN PERIL AT FIRE.

**OSSINING, N. Y., Nov. 11.**—Five hundred spectators, mostly women and children, narrowly escaped serious injury here tonight in a fire panic in the Olive Opera House, when films in a moving picture machine caught fire. Many persons who scrambled down the single narrow flight of stairs to the exits were bruised.

## SPORTS

### SPORTDRIFT

A great deal of interest is being taken in the coming walking race, which will be held on Kalakaua Avenue on Sunday December 19. One of the finest lists of prizes ever offered for a race, have been donated by the many houses in town, and no doubt each ped will endeavor to annex at least one of them. The entry list to date is not large, but a number of new entries are expected before they close next Saturday night. So far Dick Sullivan has not entered, but he will no doubt be seen in action on the day of the race. Some of the best walkers have entered, and they will no doubt be able to give a good account of themselves.

A pool and billiard tournament for the championship of the islands is being talked of, by the many lovers of the cue, and such an event would be a very interesting one, as there are a number of good players here. Where the matches will be played has not been decided on as yet, but the Moana and Young Hotels are the most convenient for such a tournament.

The different branches of the government service have been holding tournaments lately, and no doubt their best players will enter when the time comes.

The much talked of football game between the Marines and the Townies for Christmas Day, looks very bright, and the game will probably be played. Captain Sumner is certain that he can get a good team together, and is also certain that his team will win over the husky team from Camp Verry.

If the Marines should win this game a fifth and deciding game will no doubt be played on New Year's Day for the championship. The Marines have not let up in their practice work, and they feel very confident over the result on December 25.

Jimmy Crane, the brother of Manager Crane of the Gazette Co., broke his collar-bone recently in an accident at Pahoa where he is employed by the Hawaiian Development Company. The accident is particularly deplorable in view of the fact that Crane is a Marathon runner, and had looked forward to making a showing in the New Year race, and his accident will at least, interfere with his training, if it does not prevent his entering altogether.—Hilo Tribune.

A number of enthusiastic automobilists are talking about another round the island endurance run on different lines, however than the previous ones held last year. There are now a much larger and more powerful collection of cars in town and such a race would no doubt cause a great deal of interest. For some time back the Automobile Club of Hawaii have been doing very little in the way of creating interest in the sport, but several of the members have been talking lately of the proposed run, and it is almost certain that the matter will be brought before a meeting of the club in the near future. The roads now are in much better condition than they were a year ago, and no doubt some interesting scores would be turned in at the end of the run.

If a certain time limit was set for the entire distance, instead of making time controls at different points, it would create much more interest than on former occasions, when one had to run very slow to keep from getting in ahead of time.

As the matter is just being talked of, no definite date has been set, although a number want it held in connection with the Floral Show on the 22nd of February.

### THE WHOLE SCIENCE OF IT.

Two women walking along one of the business thoroughfares of the city, heard a great shouting of "Extry, extry!" and looked about to see where all the noise was coming from. Across the street they spied one very small newsboy shouting with all his might.

One of the women attracting the boy's attention, called him to her and bought a paper; then, as she dropped the coin into the little fellow's hand, she said:

"You mustn't make too much noise, my little man; you can sell your papers just as well without yelling so." For half a second the boy looked up at her in surprise, then exclaimed: "You don't understand, missus; you've got to yell like hell to make a living in New York."

### HE HATED TO WASTE ANYTHING.

Fetzer (in street car)—See that man sitting at the other end—the big fat fellow who takes up so much room? Wallman—Yes.

Fetzer—Do you know why he doesn't give up his seat to that little thin woman standing in front of him? Wallman—That's easy; he's too selfish.

Fetzer—No, you're mistaken. That's Millionaire Grippe. He made all his money by practicing economy and the habit of wasting nothing is so strong in him that he would feel guilty if he gave his seat to a woman who was not large enough to fill it.

**"DRY" VOTES CLOSE BREWERY.**  
**BOISE, Ida., Nov. 18.**—As a result of the local option elections held yesterday, Washington, Twin Falls, Lincoln and Kootenai voted "dry" by substantial majorities. The victory for the "dry" element in Kootenai county will result in the closing of a new brewery at Coeur d'Alene erected at a cost of \$250,000, which has only been running a few months. All saloons in the four counties will be compelled to close up within three months.
